CONTROL ENGINEERING MAGAZINE

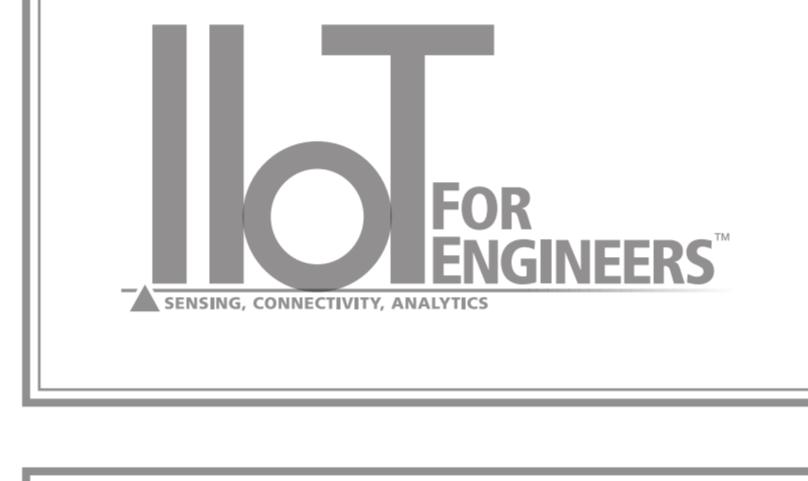

Control Engineering is the leader in connecting the global industrial engineering audience through coverage of and education about automation, control, and instrumentation technologies in a regionally focused, actionable manner through online and print media and in-person events.

For more than 55 years Control Engineering has been the recognized global information leader for automation engineers who design, implement, maintain, and manage control/instrumentation systems, components, and equipment. This audience continues to recognize Control Engineering as the leader in the field due to our comprehensive coverage of automation technologies and applications.
