

# CASE STUDY

Run a full page ad in the **Nov/Dec 2024** issue of **Control Engineering** and receive a **Case Study Showcase** advertorial page at no cost.

Promote your case study to our engineers with text and images that describe the **location** (pipeline, manufacturing plant etc.) and **project focus** (SCADA, control system, etc.). You may also include a direct link back to the case study on your company website\*.

CFE's designer will create your page based on our standardized template. Please follow the specifications below and supply the following raw materials:

- **Headline: Maximum 15 words**
- **A “Challenge / Solution / Results” sidebar: no more than 100 words total. (provide three concise paragraphs to follow three subheads — Challenge / Solution / Results)**
- **200-word max Summary Copy**
- **2 high-res photos (300 dpi at minimum 3½ inch wide)**
- **Optional QR code**
- **2-deck footer next to high-res logo**

The mockup shows a page layout with the following sections:

- ADVERTISMENT** (top left) and **CASE STUDY** (top right)
- Short, fifteen-word headline to appear at top, should be the name of project/case study.** (indicated by a callout line)
